Caspar David Friedrich:
Picture "The Wanderer Above the Sea of Fog" (1818), framed

€490.00

Product no.: IN-691065

Friedrich wanted to give insight into the human soul with his pictures of nature. He went on long hikes through the mountains and along the coast and experienced the human being as a small creature compared to the immense power of nature. As a lonely hiker, he looks longingly into a vast landscape with a distant horizon. The rising sun symbolises hope, the mist the uncertainty of what is to come. His figure turns its back on the viewers and invites them to put themselves in its place and admire the spectacle of nature. Original: 1818, oil on canvas, 94.8 x 74.8 cm, Kunsthalle Hamburg.

Reproduced using the Fine Art Giclée process directly onto 100% cotton artist's canvas and mounted on a stretcher frame for a brilliant, authentic reproduction. Limited edition 499 copies, with certificate. Framed in a handmade antique-gold real wood frame. Size 91 x 74 cm (h/w). ars mundi Exclusive Edition.
