The original idea for Garda Alexander's "Seed" sculptures came about during a dive. Inspired by the fascinating underwater world, she created a model out of paper and later out of wax. During the creation process, she found similarities to the shape of a brain or a seed, which she did not see at first. Nature itself inspired her, and she wants to inspire the viewers of the works in the same way.

Any idea that sparks from our mind shape our reality - based on this thought, Alexander's interpretation of a thought seed was created. Unique piece made of waxed bronze, signed. Size 26 x 26 x 26 cm (h/w/d). Weight approx. 12 kg.
