The Art of the Silhouette: Cut Outs

Paper cutting and the practice of cutting out objects on printed paper continue to have the reputation of being a technique for early artistic education, although it has long since attained the highest consecrations. Henri Matisse, for example, "drew" with scissors and paper in his later years, creating a new medium that revolutionised the understanding of colour and form. He stands at the beginning of a long line of artists.

Our Cut Out follows this upheaval, reinterpreting a three-dimensional sculpture into a two-dimensional art experience without sacrificing the spatial impact of the work.

Brilliant colour reproduction on real photographic print behind acrylic glass. Limited edition 499 copies, with a numbered certificate on the back. Size approx. 91 x 23 x 4.5 cm (h/w/d). The mounting device is included. ars mundi Exclusive Edition.
