

Raffaella Benetti: Sculpture "Icaro", bronze on stele

€3,250.00

Product no.: IN-948077

For the creation of this graceful piece, Benetti was inspired by Icarus, a figure from Greek mythology. Icarus attempted to fly to the sun with wings made of wax. Blinded by arrogance, he ignored the fact that his wings would melt before he could reach the sun. The artwork "Icaro" consists of a bronze figure accompanied by two delicate wings behind it. It can be interpreted as the contemplation of a long journey full of obstacles to be overcome.

Sculpture in fine bronze, patinated, cast by hand using the Lost-Wax-Process. Aluminium pedestal, coated in white. The wings and the figure are simply inserted into the pedestal. Limited edition of 75 copies, numbered and signed, with certificate. Indoor use only. Sculpture size 31 x 12.5 x 10 cm (h/w/d), weight approx. 2.4 kg. Size pedestal 118 x 15 x 15 cm (h/w/d) with base plate 40 x 40 cm (w/d), weight approx. 12.2 kg.
