

Picture Hanger Hook "flexyloT BASIC" - Set of 3

€9.99

Product no.: IN-904941

With the new flexible picture hanger hook flexyloT BASIC, you align your picture with precision after the hole has been drilled. It is the practical combination of a variable wall bracket and frame holder. Drill one hole, insert the dowel, screw in the flexyloT BASIC. Now the picture can be moved horizontally, vertically or even diagonally without any problems - with millimetre precision and always changeable. flexyloT BASIC is ideal for precisely attaching one or even several pictures to a wall. flexyloT - a winner on the German VOX TV show "Die Höhle der Löwen" (Dragon's Den) in March 2020.

flexyloT BASIC:

flexyloT BASIC can always be flexibly aligned. Distances between pictures can be changed: vertically max. 2.7 cm, horizontally max. 10 cm, diagonally max. 2.7 cm, load capacity per wall bracket max. 7.5 kg, load capacity with 2 wall brackets max. 15 kg, incl. Fischer DuoPower dowels for all wall types, suitable for almost all commercially available frames and pictures.

FlexyloT BASIC in a set of 3:

3 wall brackets made of 100% recycled plastic, 3 self-adhesive frame holders made of 100% recycled plastic, 3 screws, 3 dowels, 1 instruction manual.
