Artful seduction! She is the goddess of love, beauty, erotic desire and sensual pleasure and was one of the most important deities in ancient Rome for a good reason - Venus.

Inspired by antique models, the detail artist Krystian Xaver succeeds in transporting Venus into the present day with modern imagery and sensitive eroticism, giving her a contemporary aesthetic. The centre of his depiction is the expressive, female upper body. Wrapped in a fine cloth and accentuated by a golden finish, he surrounds the sculpture with a mysterious tension that stimulates the viewer's imagination and leaves room for personal interpretation. Krystian Xaver's Venus fascinates with its detailed, delightful depiction of sensual femininity.
