The largest of all falcons is majestic - the gerfalcon. It is a rare visitor to Central Europe: the majestic gerfalcon, the largest of all falcons, lives in the far north (Canada, Russia) and inhabits the vastness of the tundra. Because of its magnificent beauty and its suitability for falconry, it was already highly valued in the Middle Ages. Trained gerfalcons were so valuable that they repeatedly served as diplomatic "diplomatic gifts" for majesties of the kingdoms of those times. Even today, the gerfalcon is considered to be the best falcon of all.

Bronze sculpture, cast using the Lost-Wax-Process, chiselled and patinated by hand. Size 23 x 13 x 24 cm (h/w/d). Weight approx. 2.2 kg. Without column.
