Product no.: IN-712112.R3

Franz Marc and his power of colours: Together with Wassily Kandinsky and August Macke, Franz Marc founded the legendary "Blaue Reiter". He opened the way for an art in which colours acquired a symbolic meaning far beyond naturalistic representation.

One of Franz Marc's most famous paintings is now available as a painting replica in outstanding quality. The original artwork was transferred directly onto artist's canvas using the Fine Art Giclée process for a brilliant, authentic reproduction and stretched onto a stretcher frame. Limited edition of 1,000 copies. With a wide solid wood frame. Size 28 x 36 cm (h/w). ars mundi Exclusive Edition.

"Cows Yellow-Red-Green" (1912): Like ancient Egyptians, Marc perceived yellow as the colour of feminity, the "gentle, serene, sensual". Green as a symbiosis of yellow and blue creates growth and wisdom.
