Product no.: IN-704161

Your picture gallery en miniature with world-famous works by old masters!

For centuries, miniature pictures made of fine porcelain were produced mostly for aristocratic collectors. This miniature painting bears a museum masterpiece that is transferred by hand onto genuine Thuringian porcelain, fired twice and mounted on a pastel-coloured passe-partout. Afterwards, the shiny gold edge is applied by hand with a metal leaf. The valuable overall picture is rounded off by a solid wood frame that has been primed and sanded several times. Size 9,7 x 10,8 cm each.
