Loriot's "Character Heads": The classics

Loriot looked people in the eye with a specific intuition. It is precisely the portrayal of small and quite natural weaknesses that makes Loriot's characters so irresistibly likeable. His character heads are designed entirely with this in mind. It is no coincidence that they are reminiscent of the "Three Wise Men", but they are nevertheless typical Loriot style: "The Expert" who should not speak, whispers with his hands held out. "The Dreamer" pretends not to hear but secretly listens with one ear. And even though "The Optimist" holds his hand in front of his eyes, he still peeks between his fingers.

ars mundi offers you these perfectly shaped sculptures in two high-quality versions - as a precious bronze cast and as a "Loriot-coloured" polymer cast. Both series are strictly limited and only available at ars mundi.
