

Stable from "The Ulrich Nativity" (without figures), wood hand-painted

€260.00

Product no.: IN-792355

The "Ulrich Nativity" from the Val Gardena (Dolomites) is considered one of the most beautiful nativity scenes ever. It owes its origin to the art of woodcarving, which was already flourishing in the 17th century there. It had developed from a peasant sideline into an independent craft. Stable carved out of precious sycamore maple wood. Size 75 x 33 x 38 cm (w/h/d). Without figurines.
