3D wall objects "Birds of Paradise" made of recycled cardboard, DIY, set of 5

€78.00

Product no.: IN-941853

Fantastic worlds: From exotic birds of paradise to jungle scenes - The colourful DIY creations in 3D set humorous accents.

"Run through the forests, gallop through the fields. Set your imagination free and play!" This is the manifesto of studio ROOF, a creative label based in Amsterdam. Besides nature, fantasy and childhood, art is a great source of inspiration for the family business. The playful 3D objects made of recycled cardboard, printed with vegetable dyes, are designed to be plugged together - and now cover a wide variety of themes. However, all creations have one thing in common: modern, graphic imagery and a bright colour palette.
