Ludwig van Beethoven once said: "Look at the beautiful nature and calm your mind". "That's how I felt when I was in spring in the Alps and saw the masses of blossoms". (Quote Petra Waszak)

This blaze of colours immediately served as the inspiration for this colourful piece of jewellery made of shimmering yellow citrine, fresh aquamarine, vivid fluoride, pink jasper, cultured pearls and tiger's eye. The harmony of the partly 24-carat gold-plated brass elements and Swarovski crystals transmits the tranquillity of nature and creates an extraordinary piece of jewellery. Adjustable length approx. 41-47 cm. Lobster clasp.
