

Renaat Ramon: Sculpture "The Muses Thalia", black cast version

€690.00

Product no.: IN-888837

The works of the Belgian Renaat Ramon are characterised by their great objectivity. Geometric structures, clear lines and a monochrome colour scheme are frequently recurring features of his sculptures. Yet for all their rational austerity, they also radiate something calming and harmonious.

Thalia, who appears in Greek mythology as the muse of comedy and entertainment, is transformed by Renaat Ramon with almost mathematical precision into a fascinating futuristic being.

Sculpture made of resin, black lacquered. With certificate. Size 45 x 15 x 17 cm (h/w/d). Weight 10 kg.
