

Jochen Bauer: Sculpture "Puss in Boots", hand-painted

€560.00

Product no.: IN-721804

Once upon a time, there was a miller who had three sons, his mill, a donkey and a tomcat... The Grimm brothers' fairy tale has been presented in many variations. It works with simple motifs and deals with the question of injustice when inheriting, the gratitude of the tomcat and, finally, the good fortune that ultimately makes the supposedly poorer a wealthy man.

Puss in Boots, Hans in Luck, Baron Munchhausen... Since our childhood, when we heard fairy tales and stories for the first time, each of us has carried a precise image of these figures in our minds. That is also the case for artists, including sculptors. They create a sculptural item of your version of these childhood companions on our behalf. We cast the filigree models of their childhood images in a complex process - these sculpture models are available exclusively from ars mundi.

Sculpture cast in metal and painted by hand. Size 14 x 18 x 7.5 cm, weight approx. 3 kg.
