"We have the duty to give water back to nature as clean as when we received it." (Friedensreich Hundertwasser - painter, architect and ecologist)

The WaterFoundation:

The WaterFoundation approaches its work by asking this question: How can we as human beings provide sufficient clean water? Water structures have to be created that are adapted to the everyday life of the people, their cultures, their environment, their technical and financial possibilities.

A few weeks before his death Friedensreich Hundertwasser took over the patronage of the WaterFoundation. For him, the topic of water was a special concern throughout his whole life. Hundertwasser drew his first sketches for a water glass on April 21st 1993. "The Rainy Day Water glasses for Life" were realised by the Königlich Tettau porcelain factory in Germany. Each Rainy Day Water glass For Life is fired at 600 Celsius degrees, has 14 facets and is printed by hand with 13 colours, each with a capacity of 0.20 litres. "The Rainy Day Water glasses For Life" will be shipped in a decorative gift box that is equipped with special foam inserts.

Your purchase of a gift box set (2 pieces, 6 pieces or 7 pieces) will support the WaterFoundation with a donation of (EUR 5,-, EUR 10,- or EUR 18,-).
