

Allen Jones: Sculpture "Free Spirit", bronze

€6,400.00

Product no.: IN-333489

The first sculpture Allen Jones created in bronze is called Free Spirit. He has literally dematerialised bronze and processed it with a lightness that leaves us stunned. The artist succeeds in transferring lightness, light-heartedness, cockiness, and even irreverence towards all conventions onto the material. "Free Spirit" appeals to both the mind and the emotions and, at the same time, provides an extraordinary visual pleasure. With the loose wide-cut trousers, the swirling tie, a stylised profile and a hat - unresolved whether blown by the wind or balanced on the forehead - Free Spirit immediately takes us in.

Fine bronze sculpture, patinated and partially polished. Cast by hand using the Lost-Wax-Process. Limited edition of 125 copies, signed and numbered. Height of the sculpture 65 cm, weight approx. 4.5 kg
