

Siegfried Neuenhausen: Sculptural group "Sequence", bonded bronze version

€660.00

Product no.: IN-307816

Siegfried Neuenhausen's "Sequence" is situated in the field of tension between "rising" and "sinking". The bronzes show an almost Kafka-typical situation: a retreat in instalments disguised as a flight forward. The group of figures can be given new meanings by changing the arrangement. Even small variations create significant mood changes.
