

Bruno Bruni: Coffee pot "I promessi sposi"

€98.00

Product no.: IN-416145.5

The porcelain masters of one of Europe's most traditional porcelain manufactories transferred Bruno Bruni's motifs to the "white gold" exclusively for ars mundi. The porcelain painters of the Königlich privilegierte Porzellanfabrik Tettau, founded in 1794, implement the artist's specifications with great attention to detail in 10 colours and polished with 24-carat high-fire gold. Each individual piece of this outstanding artist's service set was created by hand and fired up to 4 times at 1,200° Celcius. As a sign of this craftsmanship, every single piece is numbered by hand. Particularly interesting for collectors: the first 1,000 complete sets are given unified numbering with the edition numbers 0001 to 1000.

Capacity 0.97 l, height 24 cm.
