

Sonja Edle von Hoessle: Sculpture "Loop 31 - Steel Edition" (1999)

€3,200.00

Product no.: IN-884421

Sonja Edle von Hoessle's "Infinite Loops" are created from precisely shaped steel parts that unfold in deep space and, depending on the angle of view, become shapeshifters that unfold a completely different effect each time. Since 2012, the sculpture "Infinite Loop V" has adorned the Würzburg cityscape. The steel sculpture shown here, with its gold-plated surface, is reminiscent of a filigree piece of jewellery.

Steel sculpture, 1999. edition: 7 copies, numbered and signed on the certificate. Height 53 cm, width 43 cm, depth 20 cm.
