Whether monumental metal sculptures in public spaces, expansive installations or light art objects - they all draw inspiration from the real world. However, Hien transfers his themes into unexpected contexts, alienates them and sometimes exaggerates them to the point of grotesque or humour, as seen in the present work "OGOD" from 2023. In doing so, he questions many achievements and taken-for-granted aspects of the modern world.

Neon systems, metal and paint, 2023. edition: 9+1 copies, dated, numbered and signed. Height 11 cm. Width 53 cm. Depth 11 cm.

The object is titled in German "OGOTT"
