€1,590.00

Product no.: IN-744510

Different biographies, one material. The artists Gilbert Kruft, Gabriella and Giovanna Venturi from the art foundry Venturi Arte share a fascination for bronze. Every year, they jointly release a new cast collection using the Lost-Wax-Process, which is always strictly limited to 500 copies. Each piece is numbered, signed and shipped with a certificate of authenticity.

Bronze bowl "Agave":

The art foundry Venturi Arte is a family business. Gabriella, the widow of the founder Gianpaolo Venturi, successfully continues the tradition and creates her own works. Bowl made of fine bronze, the tips of which rise up as powerfully as Kruft's "Vortice" candlestick (item 744536). The mutual influence of long-term collaboration is unmistakable. Polished and partially patinated. Diameter 30 cm, height 17 cm. Weight approx. 6.8 kg.
