Power and passion: Mader's bull

Hans-Peter Mader has been fascinated by the power and passion of the bull ever since he attended a bullfight in Madrid. For several years now, Mader has been sculpting bulls in bronze, each time alienating the bull, which "in terms of its habitus is more reminiscent of a 'boring cow with horns', into a dynamic powerhouse."
His bull combines the nimble lightness and the dynamic force of the model; it is both an image and an analytical study of the geometry of his physique.

Edition in bronze. Cast using the Lost-Wax-Process, patinated and polished by hand. Limited edition of 199 copies. Numbered, signed and hallmarked with the foundry stamp. Size 19 x 35 x 14 cm (h/w/d). Weight 3.7 kg.
