

**Rosenthal:**

**Porcelain vase "Squall Gold Titanised" (medium, height 32 cm) - Design Cédric Ragot**

**€479.00**

**Product no.: IN-925476**

Fascinated by the plasticity and the limits of the malleability of materials, the French designer Cédric Ragot has designed a new series of vases. "Squall" picks up on the idea of capturing a movement in all its dynamics and allowing it to solidify. "Squall" is reminiscent of a whirlwind or water vortex whose elemental force is cast in the imperishability of porcelain, an extraordinary design object with great radiance.

Made of the finest porcelain by the renowned traditional house Rosenthal under the successful "studio-line" design brand. Medium version titanised in gold. Height 32 cm. Weight 2.2 kg.
