**Product no.:** IN-903372

The mouse is not only an inhabitant of woods and meadows - it is a synanthropic animal and likes to live close to humans - already Aesop's fable describes the encounter between the town mouse and the country mouse. Now, you can invite them as a guest into your house and garden as a fine bronze figure. The cheese supplies remain untouched, they don't gnaw, and even at night, they are silent. And this rodent even brings its own house - the mouse hole.

Bronze sculptures cast using the Lost-Wax-Process, chiselled and patinated by hand. Can be fastened using the threaded pin supplied.
