Relaxing with a good book - Richard Senoner reproduces this moment with his sensual depiction of the "Reading Woman". His nude sculpture of a young woman is also a homage to literature and reading. The sculpture is vivid and expressive because of the contrasting colours of the patination and the base designed like an opened book.

Senoner's years of experience with his central subjects of nude sculptures, are evident due to the shaping of the proportions. He attaches great importance to a detailed and precise elaboration and gives harmony and aesthetics to his works.
