€380.00

Product no.: IN-727858

The sculptor Roman Johann Strobl is known for his wooden works, for which he sometimes even uses a chain saw: his "Planetarians" show the fine workmanship he is capable of with traditional wooden tools. It is a kind of ecological triptych and shows humans as attached to the earth, striving from the earth to the sky or, in this case, as a "planetarian" who will possibly one day populate other worlds. The replicas are only designed for wall mounting.

Sculpture as a wall object. Polymer cast in wood finish, partly painted by hand. With the signature of the artist. Size 28 x 17 x 26 cm (w/h/d). Weight approx. 5 kg.
