

## Necklace "Dancing Elements"

**€398.00**

**Product no.: IN-758197**

The filigree elements of the necklace nestle together like an enchanting dance. Graduate designer Béatrice Wolfart did not just want to string chain links together but to find a new form of connection. The gold and silver elements on the fine stainless steel are individually handcrafted and structured. 925 sterling silver, partially gold-plated. Adjustable length 43-48 cm.
