In Constance Renken's large-format, abstract motifs, in which she applies acrylic paint with a palette knife on canvas, expressive colours dominate, with which she captures the emotions of interpersonal encounters. The more extreme the colour contrasts, the more intense and unaltered the feeling of the encounter.

Original painting 2017. Acrylic on canvas, signed on the back. Stretched on stretcher frame. Painted side edges. Stretcher frame size 80 x 80 x 4,5 cm (h/w/d). Framed in solid wood shadow gap frame. Size 89 x 89 cm.
