

Beth Newman-Maguire: Garden sculpture "Sun, Moon and Earth", bronze

€42,800.00

Product no.: IN-937694

Since Einstein, we have known what keeps suns, planets and satellites in their orbits: The universal force of gravity. This knowledge has brought us further in the field of science, but there is no doubt that the old explanations were much more poetic. For example, when they interpreted the harmonious circling as the "dance of the universe". It revolves in an eternal round dance around our central star.

Beth Newman-Maguire finds the picture of a ballet dancer in the basic position for this round dance. In the next moment, it seems, she begins her dance - and thus sets the mechanics of the world-building in motion.

Edition in bronze, cast using the Lost-Wax-Process, chiselled and patinated by hand. Limited edition of 9 copies, numbered and signed. Size incl. pedestal 263 x 42 x 58 cm (h/w/d). Weight approx. 211 kg.
