The pigtails sway joyfully in the wind, and the pockets of the dungarees are surely already filled with stones and other small treasures. The bronze figure of the girl is bursting with the joy of discovery and zest for action. She holds the little bird carefully in her hand, and her eyes fixed on it as if they were engaged in conversation.

Cast using the Lost-Wax-Process, patinated in two colours. Size 50 x 27 x 20 cm (h/w/d) incl. pedestal. Weight 6.6 kg.
