Edvard Munch:
Picture "Summer Night by the Beach" (1902), framed

€440.00

Product no.: IN-852896

The reflection of moonlight on the surface of the water is far more than the reproduction of a natural impression. Edvard Munch staged the pale glow as a column of light that signals the viewer's location in the cosmos like an exclamation mark.

Reproduction using the Fine Art Giclée process on 100% cotton canvas, stretched on a wooden stretcher frame. Handmade real wood frame. Size 67 x 76 cm (h/w). Limited edition 499 copies. ars mundi Exclusive Edition.
