The famous water lily paintings by Claude Monet are unforgettably beautiful. In his self-created garden in Giverny, he experimented with changing light conditions and captured above all the reflections of the sun on the water of the water lily ponds.

This jewellery set, made of amethyst and moonstones that sparkle in various shades, is also made of partially gold-plated 925 sterling silver and imitates the reflections on the water's surface.

Necklace: size pendant 2 x 4 cm (h/w). Chain length 41 cm.

Bangle: length 18 cm. Adjustable, open at the back. Width 2 cm.

Stud earrings: diameter 1.5 cm each.

The jewellery set includes a necklace, a bangle, and stud earrings.
