Fish Design by Gaetano Pesce: Vase "Pompitu II", silicone

€390.00

Product no.: IN-834909

Some of the objects by the Italian architect and designer Gaetano Pesce are exhibited in the MOMA New York and the Victoria and Albert Museum in London. The "experimental designer" has always explored the possibilities of new materials. That is reflected in this handmade one-of-a-kind vase made of silicone he designed for the Fish Design Collection - a real eye-catcher. Height 37 cm. Ø approx. 25 cm. Don't fill up this decorative vase with water. It is best to place a glass vase inside the piece of art and then fill it up.
