"The body is the beach of the soul", according to an old saying. The place where the movable meets the solid, where the refreshing drench the thirsty. Gerd Bannuscher has captured this encounter on canvas with "The Steep Coast of Brodten". Sensations and light effects are condensed into a total work of art - more strongly than in a photograph. An eternal surf. Refreshing!

Giclée print on canvas, limited edition of 199 copies, numbered and signed on the back. Stretched on stretcher frame. Size 40 x 134 cm (h/w).
