

## Garden sculpture "Raccoon, sitting", bronze

€1,690.00

Product no.: IN-903231

The raccoon is an extremely skilful animal. According to behavioural biologists, it is probably also a very intelligent animal. Indigenous natives in its homeland of America have even said that it has magical powers. In German the racoon is named "Waschbär" ('wash-bear'). But this cute little fellow is not a bear - it is a member dog family (Canidae). And the fact that it "washes" its food before eating, as was believed when giving it its German name, is also more human perception than reality.

A typical hand movement: The raccoon skilfully knows how to use its five long fingers. Sculpture in bronze, cast using the Lost-Wax-Process, chiselled and patinated by hand. Size 33 x 45 x 26 cm (h/w/d). Weight approx. 11 kg.
