

Fossil Decapoda Eryon Propinguus

€468.00

Product no.: IN-186432

Stone witnesses of prehistoric times: At the time of the first flowering plants, when life began to soar, organisms in the vast lagoons of the Jurassic Sea were transformed into minerals, into naturally created works of art and stone witnesses of former communities of life. Their study provided the basis for evolutionary research. Our true to the original replicas of famous and unique fossils provide deep insights into the life of the prehistoric world.

The gill-breather immortalised here lying on its back, an ancestor of crabs, possessed powerful claws for grabbing and cracking other seabed dwellers. Original: Bürgermeister Müller Museum, Solnhofen. White Jurassic (Malm).

Artificial stone with limestone effect. Format 44 x 28 cm, with suspension device.
