

Mats Jonasson: Set of 2 water glasses "Kubik and Elektra", black version

€98.00

Product no.: IN-752235

The artist Mats Jonasson first moulds each piece in plaster. Next, he creates a hollow iron mould into which he pours high-quality crystal glass. Finally, he sandblasts and polishes the blank in an elaborate process. The Maleras Glassworks is testimony to Jonasson's commitment to keeping design and production in the Swedish glassblowing village permanently - despite many counter-offers. Today, his glass art is world-famous among collectors.
