

Kerstin Stark: Sculpture "Finding Each Other", bronze with cast stone

€280.00

Product no.: IN-440668

With her reduced, high-contrast design, Kerstin Stark was representative of a young generation of artists who convey messages of everyday life with their bronze sculptures. Kerstin Stark deliberately contrasted the finely polished bronze with the pedestal made of black-coloured cast stone, giving her protagonists a special luminosity.

This couple is truly working hard on their path to happiness. But don't give up: the goal is almost reachable... Table sculpture in polished bronze with black cast stone base. Height 14.5 cm, width 18.5 cm, depth 6.5 cm.
