

Garden sculpture "Mother Duck", bronze

€498.00

Product no.: IN-898020

The garden pond is its territory: the duck slowly swims around. And if you like, you can turn the lifelike bronze sculpture with the chicks matching its size and design into a proud mother duck, followed by the youngsters as a group nestled together (see item 903129) or as individuals (see set item 903363). They are silent and do not chatter excitedly, and are highly unimpressed by predators of any kind. This is a stately and finely executed copy of the Anatinae family with partially patinated plumage.

Sculpture in bronze, cast using the Lost-Wax-Process, chiselled and patinated by hand. Size 18 x 14 x 32 cm (h/w/d). Weight approx. 2.6 kg. Can be fastened using the threaded pin supplied.
