

Ulrike Bultmann: Picture "Acid Blooming III", unframed

€290.00

Product no.: IN-770097.00

Blossoming in the flowerbeds, the efflorescence of colours - here, Bultmann equates these in many senses. Even if the bright colours of her abstract calyxes seem to have been applied spontaneously, the finished picture bears witness to a precisely thought-out structure in which all elements have found their place.

This limited edition is published exclusively by ars mundi as a colourful and high-resolution Giclée print on heavy handmade paper. 199 copies, numbered and signed. Unframed. Sheet size 76 x 56 cm.
