€260.00

Product no.: IN-740164

Ancient beauty - Petra Waszak revives the forms and symbols of art history. Persians, Aztecs and Egyptians valued this likely oldest semi-precious stone. Turquoise was considered a lucky charm and a guarantor of prosperity. The necklace made of small turquoise cuboids is adorned with a pendant (4 x 4.5 cm) with inlaid work and ornaments of turquoise, some of which are hand-coloured. Accents are set by the gold-plated brass elements. The pendant and clasp are also made of 24-carat gold-plated brass. Length adjustable 40-46 cm.
