

Necklace "Rays"

€89.00

Product no.: IN-770503

In 1988, a group of designers came together in the idyllic South African coastal town of Plettenberg Bay and founded the jewellery company Brass Images. The basic materials of the creations are solid brass and copper. The philosophy: meticulous handicraft with a love of detail. Each piece is unique, therefore, slight colour variations are possible.

The "Radiance" jewellery piece is radiantly beautiful. The multi-faceted colouring of the brass and copper plates is the result of heat treatment. Adjustable length 44-50 cm.
