

## Petra Waszak: Bracelet "Cheetah"

€128.00

Product no.: IN-719147

The jewellery of the dark continent offers a multitude of colours and shapes and an infinite wealth of variations - with mostly simple jewellery elements copied from nature. Petra Waszak, who has always been enthusiastic about the African jewellery tradition, has been inspired by it to create extraordinary creations.

Bracelet "Leopard": The pattern of the Murano glass bead is reminiscent of a leopard's fur. Combined with wooden beads and 24-carat gold-plated brass elements, the result is a colour-harmonious, lively piece of jewellery. Length 21-23 cm.
