€1,780.00

Product no.: IN-846767

It is no coincidence that Klee's "Camel" is one of his major works. It is a perfect example of the originality of the artist, who went his very own way during a vibrant artistic era. The picture is not an alternative - it is everything. It is representational - the camel is clearly recognisable. It is abstract in the use of colour planes and the graphic elements of circles and lines. Although they can easily be understood as trees, they are also musical notation, showing the camel's swaying gait through a (his) score - a picture that can be seen and "heard".

One of Klee's most famous works adapted onto a tufted carpet made of high-quality synthetic fibre. Back made of felt with carpet binding tape. Carpet 100% polyamide, back and band 100% polyester. Suitable for underfloor heating. Size 230 x 160 cm (l/w).
