€9,800.00

Product no.: IN-263977

Messages of the inner life, perhaps that is how one could describe Horst Antes' leitmotif. "Objects are projections from within, from the human being," said the artist back in 1970. At the same time, his creatures "always remain cheerful artistic figures" (Antes). Antes, who was born in 1936, is one of the great contemporary international artists. The "Figure 1000" is certainly one of Antes' most striking works. Its imposing force immediately reveals the artist's typical trademark. It also subtly integrates the elements of archaic and Indian art, which Antes studies intensively.

Weather-resistant and therefore suitable for indoor and outdoor installation. Height 2.20 m, welded on a base plate in size 90 x 70 cm. Weight 80 kg.
