Emil Nolde:
Sculpture "Mother with Child", bronze

€1,480.00

Product no.: IN-929139

Together with the Nolde Foundation Seebüll, we were able to realise a bronze edition of Emil Nolde's woodcarving work "Mother and Child" in its original size. The almost touching work shows him as a sculptural artist of distinction.

"It is relatively unknown that Emil Nolde began his artistic development as a trained wood sculptor and furniture carver. He was, therefore, very familiar with wood when he took up the carving technique again during his trip to the South Seas in 1913/14. He created a small series of sculptures while still on the trip. All of them are part of his estate at the Ada and Emil Nolde Foundation in Seebüll.
The motifs of those sculptures are a central theme that characterises his art: the human being. His interest was the reproduction of the character underneath the surface and the essential qualities of the persons depicted. It gives me great pleasure that with this sculpture, reproduced in excellent quality, another facet of Nolde's work is becoming known to a select public." (Dr Christian Ring, Director of the Nolde Foundation in Seebüll)

Fine bronze sculpture, cast by hand using the Lost-Wax-Process, chiselled and patinated. Directly moulded from the original and reproduced in the original size.
