

Chinese Buddha Head

€880.00

Product no.: IN-371093

A depiction that is moving particularly because of its simplicity: the ears, once elongated with rich jewellery, are without adornment in the sense of the historical Buddha, who discarded all adornment along with his status. The two-dimensional head with its clear and pure facial features, the inward gaze and the peacefully smiling countenance merge into an expression of perfect harmony.

Original: Chi Dynasty, 6th century AD, MMA, New York.

Reduction as ars mundi museum replica, hand-cast in polymer artificial marble on a black diabase base. Size 12 x 11 x 12 cm (w/h/d). Height with pedestal 38 cm.
