

Garden sculpture "Mouse, Fleeing", bronze

€210.00

Product no.: IN-898014

The mouse is not only found in forests and meadows - it is a synanthropic animal that likes to live close to humans - the Aesopian fable already tells of the encounter between the *mus rusticus* (the country mouse) and the *mus urbanus* (the city mouse). As a fine bronze figure, you can confidently invite them into your house and garden as guests: Your cheese stocks will remain untouched, nothing will be gnawed on and even at night, they will be quiet. This rodent provides its own house - i.e. the mouse hole.

Bronze sculpture, cast using the Lost-Wax-Process, chiselled and patinated by hand. Size 9 x 10 x 7 cm (h/w/d). Weight approx. 0.4 kg. Can be fastened using the threaded pin supplied.
