

Birdhouse "Half-Timbered House"

€64.00

Product no.: IN-885240

With just a few simple steps, a bird feeder can be transformed into a nesting box. The food supply, which can be easily filled in through the removable roof, is protected from moisture. The construction prevents larger birds such as jackdaws and magpies from feasting inside the birdhouse. A mounting plate, screws and instructions (for mounting it on a tree) are included. Size 24.7 x 18.4 x 19.4 cm (h/w/d). Matching metal stake please see item number 885258.
